271	Forest & Bird	Ref 14 Support	Plan's effectiveness requires stringent monitoring regime.
		Ref 15 Support	Requirement for clear, detailed definitions.
		Ref 16 Support	Essential to distinguish between upper and lower catchments. Proactive management is required to improve water quality where necessary.
		Ref 34 Support	Monitoring and enforcement essential for successful outcomes.
		Ref 126 Support	Require better definition which includes quantitative as well as qualitative values for 'good quality' water; need to distinguish between parts of individual catchments.
		Ref 127 Support	Schedule should reflect policy objective (Ref 16) to enhance/ improve water quality.

Submitter No	Submitter Name	Support / Oppose	Reasons
287	Fish & Game	Ref 2 Support	An outline of related issues is essential for public understanding and acceptance. The proposed amendment re 'intensification' (and subsequent references where appropriate) addresses a matter of major public concern
		Ref 38 Support	A plan requires that objectives be measurable. "Anticipated environmental results" are necessary to establish monitoring and compliance regimes.
		Ref 211 Support	An effects-based strategy necessarily relies on a monitoring and compliance programme which leaves no room for ignorance or misunderstanding.
